MATIN MOTORS

Build for Performance. Designed for the **Future**

ABOUT US

Matin Motor is a forward-looking electric mobility manufacturer dedicated to transforming the way India moves. Established with a mission to make clean, efficient, and intelligent transportation accessible to every rider and business, Matin Motor specializes in advanced two-wheeler electric scooters and high-performance commercial e-loader vehicles. Our products are engineered to deliver superior range, durability, and operating efficiency, ensuring long-term value for both personal and commercial users. At Matin Motor, innovation is at the core of everything we build. From precision-engineered chassis structures to high-density lithium battery systems, each component is developed to meet modern mobility demands.

Our research and development team continuously focuses on enhancing motor efficiency, improving safety architecture, and integrating smart technological features to ensure a seamless riding experience. We believe that sustainable mobility is not just a trend-it is the foundation of the future. With rising fuel costs and urban congestion, electric vehicles offer a practical and responsible alternative. Matin Motor addresses this need by offering vehicles that deliver low running costs, zero emissions, and exceptional reliability. Our commercial e-loader series is specifically designed to support delivery businesses, logistics operators, and industrial users, providing robust loading capacity and long operational range for daily use.

Beyond manufacturing, Matin Motor is committed to delivering a complete ownership experience. We provide responsive after-sales support, accessible service networks, and readily available spare parts to ensure operational continuity for all customers. Our focus on quality, transparency, and customer satisfaction has enabled us to build a trusted presence in the competitive EV market. With a future-ready mindset and a dedication to excellence, Matin Motor continues to push boundaries in design, performance, and sustainability. We remain driven by one goal-empowering India with electric mobility solutions that are reliable, affordable, and built for the future.

EAGLE

A reliable electric scooter designed for daily commuting, offering smooth performance, modern styling, and efficient energy usage for urban mobility.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco/ City/ Turbo + Reverse
<i>Brake System</i>	Front Disc - Rear Drum
<i>Loading Capacity</i>	200KG
<i>Tyres</i>	12*10
<i>Controller</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	30mm heavy duty front and back adjustable shockers

WOLF WARRIOR

The Wolf Warrior EV Scooter is engineered for riders who demand strength, reliability, and commanding road presence. Inspired by the fearless spirit of the wolf, this model combines aggressive styling with intelligent electric technology to deliver confident performance in both urban and semi-urban.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front Disc - Rear Drum
<i>Loading Capacity</i>	200KG
<i>Tyres</i>	12*10
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	30mm heavy duty front and back adjustable shockers

EAGLE S

A stylish and lightweight upgrade to the Eagle series, Eagle S combines redefined design with improved efficiency for comfortable everyday rides.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front Disc - Rear Drum
<i>Loading Capacity</i>	200KG
<i>Tyres</i>	12*10
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	30mm heavy duty front and back adjustable shockers

WOLF WARRIOR S

An advanced version of Wolf Warrior, featuring enhanced stability, responsive acceleration, and a balanced ride for performance-focused users.

SPECIFICATION

Motors	Electronically Controlled, BLDC Motor (Waterproof)
Three Mode Speed	Eco / City/Turbo + Reverse
Brake System	Front - Disc Rear - Disc
Loading Capacity	200KG
Tyres	12*10
Controllor	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
Key Function	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

Speedometer	Led Digital Coloured
Head Light	Stylish Lead Headlights
Back Light	Stylish Rear Lights
Suspension	Real Hydraulic Double Shocker with Dual Tube
Wheel	Stylish Alloy Wheel
Features	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
Shockers	30mm heavy duty front and back adjustable shockers

EAGLE + (LEO)

Eagle Plus offers extended range and upgraded features, making it ideal for riders who want extra performance without compromising efficiency.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front - Disc Rear - Disc
<i>Loading Capacity</i>	250KG
<i>Tyres</i>	12*12
<i>Controller</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	Heavy duty front and back adjustable shockers

JUMBO

Designed with a strong chassis and higher load capacity, Jumbo ensures durability, comfort, and consistent performance on Indian roads.

SPECIFICATION

Motors	Electronically Controlled, BLDC Motor (Waterproof)
Three Mode Speed	Eco / City/Turbo + Reverse
Brake System	Front - Disc Rear - Disc
Loading Capacity	250KG
Tyres	12*12
Controller	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
Key Function	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

Speedometer	Led Digital Coloured
Head Light	Stylish Lead Headlights
Back Light	Stylish Rear Lights
Suspension	Real Hydraulic Double Shocker with Dual Tube
Wheel	Stylish Alloy Wheel
Features	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
Shockers	Heavy duty front and back adjustable shockers

WOLF WARRIOR +

A high-performance electric scooter engineered for demanding riders, delivering superior motor output, robust suspension, and premium ride quality.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front - Disc Rear - Disc
<i>Loading Capacity</i>	250KG
<i>Tyres</i>	12"12
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	Heavy duty front and back adjustable shockers

JUMBO S

Designed with a strong chassis and higher load capacity, Jumbo S ensures durability, comfort, and consistent performance on Indian roads.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front - Disc Rear - Disc
<i>Loading Capacity</i>	250KG
<i>Tyres</i>	12*12
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	Heavy duty front and back adjustable shockers

JUMBO 51

An improved version of Jumbo Series offering enhanced range, reinforced structure, and smooth handling for heavy-duty daily use.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front - Disc Rear - Disc
<i>Loading Capacity</i>	250KG
<i>Tyres</i>	12*12
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	Heavy duty front and back adjustable shockers

WOLF WARRIOR PRO

A high-performance electric scooter engineered for demanding riders, delivering superior motor output, robust suspension, and premium ride quality.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front - Disc Rear - Disc
<i>Loading Capacity</i>	250KG
<i>Tyres</i>	12*12
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	Heavy duty front and back adjustable shockers

EAGLE PRO

A premium commuter EV with advanced electronics, higher efficiency motor, and superior ride comfort for professional urban users.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front - Disc Rear - Disc
<i>Loading Capacity</i>	250KG
<i>Tyres</i>	12*12
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	Heavy duty front and back adjustable shockers

JUMBO LDR

Specially designed for commercial operations, Jumbo LDR offers high load capacity, long-distance reliability, and low operating costs-ideal for delivery and logistics.

SPECIFICATION

Motors	Electronically Controlled, BLDC Motor (Waterproof)
Three Mode Speed	Eco / City/Turbo + Reverse
Brake System	Front - Disc Rear - Disc
Loading Capacity	250KG
Tyres	12*12
Controllor	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
Key Function	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

Speedometer	Led Digital Coloured
Head Light	Stylish Lead Headlights
Back Light	Stylish Rear Lights
Suspension	Real Hydraulic Double Shocker with Dual Tube
Wheel	Stylish Alloy Wheel
Features	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
Shockers	Heavy duty front and back adjustable shockers

JUMBO LDR KING

A heavy-duty electric scooter built for intensive commercial use, featuring maximum payload support, extended range, and unmatched durability for fleet operations.

SPECIFICATION

<i>Motors</i>	Electronically Controlled, BLDC Motor (Waterproof)
<i>Three Mode Speed</i>	Eco / City/Turbo + Reverse
<i>Brake System</i>	Front - Disc Rear - Disc
<i>Loading Capacity</i>	250KG
<i>Tyres</i>	12*12
<i>Controllor</i>	E-ABS (Electronic - Assisted Braking System) with Regenerative Energy
<i>Key Function</i>	Central Locking with Anti Theft Alarm, Keyless Entry Tyre Lock System

<i>Speedometer</i>	Led Digital Coloured
<i>Head Light</i>	Stylish Lead Headlights
<i>Back Light</i>	Stylish Rear Lights
<i>Suspension</i>	Real Hydraulic Double Shocker with Dual Tube
<i>Wheel</i>	Stylish Alloy Wheel
<i>Features</i>	USB Charging, One Touch Rescue Button, Reverse Gear, Parking Light, Cruise Control
<i>Shockers</i>	Heavy duty front and back adjustable shockers
